

IMPROVEMENT PLAN: DUCK FARM OFF-LEASH DOG AREA

LEGEND

-  Area Closed for Construction (anticipated re-opening May 2025)
-  All Other Areas Will Remain Open
-  New Shade Shelters
-  New Restroom
-  Existing Restroom
-  Existing Shade Tree

SITE IMPROVEMENTS IN PROGRESS:

The project includes poured concrete ADA parking stalls, accessible routes to a new restroom and shade shelters, secure entry fencing system, improved boundary fencing for designated large and small dog use areas, water service connection to new ADA drinking fountains, ADA seating, asphalt repairs, striped crosswalk, drainage, fine grading and seeding.

The improved area will remain closed until Memorial Day 2025 so the new turf can grow in thick enough to hold up to dog traffic. Please note that during construction all other areas of the preserve will be open to the public. Access will be through the existing gate at the east end of the parking lot (by the existing restroom).

We thank you for your patience while we make these improvements to this preserve.
