at Captain Daniel Wright Woods Forest Preserve

Agenda Item# 8.8

RECOMMENDATION: Recommend approval of a Resolution awarding a Contract for the Oak Woodland Restoration Project; Phase II Woodland Habitat Restoration at Captain Daniel Wright Woods Forest Preserve to Clean Cut Tree Service, Inc., Grayslake, Illinois, in the Contract Price of \$93,944.00.

BACKGROUND: Captain Daniel Wright Woods contains some of Lake County’s highest quality natural areas and oak ecosystems. Oaks are considered a keystone species in the Chicago region, and play a critical role in maintaining the structure of the woodland community, providing food and shelter for many species. Unfortunately, oak seedlings and saplings and other shade intolerant trees and shrubs in our woodlands are not receiving enough sunlight to thrive. This woodland habitat restoration project will encourage the growth of oak and other native species by selectively removing trees and shrubs to open up the canopy to increase light reaching the ground level. These thinning efforts will allow future generations of oaks to mature, allow for reintroduction of native shrubs and other native ground-layer species, rebuilding a sustainable woodland habitat for the future.

The goal of this project is to promote oak regeneration across 24.7 acres of Mesic Woodland and Northern Flatwoods communities. Work will include mechanical and hand cutting, girdling, brush pile burning, loading and hauling large tree trunks, selective wick herbicide application to cut stumps, and follow-up herbiciding of non-oak resprouts.

The project was advertised on July 9, 2015 and 5 bids were received. A summary of the bids received is listed below:
