2016 Preservation Foundation Summer Tour

The goals of the Preservation Foundation Summer Tour are to raise general awareness of the District and the foundation across Lake County and build our constituent base.

In April, staff participated in two Summer Tour “stops” in Libertyville and Riverwoods. In exchange for filling out the form below and agreeing to receive communications, people received a packet of milkweed seed, branded with the foundation logo and mission statement.

- The two events had a total attendance of approximately 239.
- 87 individuals completed forms and received seeds.
