Agenda Item# 8.8

RECOMMENDATION: Recommend approval of a Resolution awarding a Contract for the Oak Woodland Phase 3 Clearing at Schreiber Lake, Lakewood Forest Preserve to JH Landworks, Wauconda, Illinois, in the Contract Price of \$87,373.00.

STRATEGIC DIRECTION SUPPORTED: Conservation

FINANCIAL DATA: This project was approved as part of the adopted FY 2016/2017 Capital Improvement Plan in the amount of \$250,000.00. This portion of the project was estimated at \$125,000.00. The actual cost of \$87,373.00 will be charged to account 35304100-803200-61005.

BACKGROUND: As part of the continuing habitat restoration of Lakewood Forest Preserve initiated in 2008, this contract is for the removal of invasive woody species and thinning of select native species from a 38-acre portion of the preserve in the SW quadrant, generally referred to as Schreiber Lake. The goal of the project is to improve prescribed controlled burn management and increase light levels to support oak regeneration, as well as the native shrub and ground-layer vegetation. Some native species, including oaks, are to be selectively thinned to reduce canopy coverage to support future oak regeneration and increased biodiversity of the understory. Work will include hand and mechanical cutting, brush disposal via brush pile burning or chipping, selective wick herbicide application to cut stumps, and follow-up herbicide application to resprouts and small stems.

The project was advertised on July 8, 2015 and 10 bids were received. A summary of the bids received is listed below:
