MEMO TO: Carol Calabresa, Chair
Planning Committee

FROM: James L. Anderson
Director of Natural Resources

RECOMMENDATION: Recommend approval of a Resolution approving an Agreement with the University of Wisconsin-Parkside, Kenosha, Wisconsin for Restoration of Coastal Habitat within the Chiwaukee Prairie Illinois Beach Lake Plain (“Connecting Coastal Wetlands: Strategic Restoration for Species of Concern” project; NFWF Project #56218) funded by a Sustain Our Great Lakes Grant in the amount of \$35,000.00.

STRATEGIC DIRECTIONS SUPPORTED: Conservation; Leadership

FINANCIAL DATA: Funding for the Ecological Monitoring for this agreement in the amount of \$35,000 will be 100% funded by the Sustain Our Great Lakes Grant, awarded August 2017, and will be charged to the Natural Resource Grant Fund (69644100-803200-56056).

BACKGROUND: On August 10, 2017, the Lake County Forest Preserve District (District) was awarded a Sustain Our Great Lakes Stewardship grant on behalf of the Chiwaukee Illinois Beach Lake Plain Partnership for the restoration of coastal habitat within the Chiwaukee Prairie Illinois Beach Lake Plain (“Lake Plain”). The University of Wisconsin-Parkside is one of many partners that will benefit from this funding to improve coastal wetland and upland habitat in the Lake Michigan Watershed. Pursuant to the contract that would be approved by this resolution, the District would reimburse UW-Parkside for resampling vegetation and initiating invertebrate sampling to study the impacts of restoration and management on plant community composition and habitat use by short and long distance invertebrate species across the Lake Plain.

The Chiwaukee Illinois Beach Lake Plain is located from the Kenosha Dunes in Wisconsin south to Waukegan Harbor in Illinois. The lake plain makes a significant contribution to the notable biodiversity of the Lake Michigan watershed and our Great Lakes ecosystem.
