**DATE:** October 1, 2018

**MEMO TO:** Craig Taylor, Chair  
Operations Committee

S. Michael Rummel, Chair  
Finance Committee

**FROM:** James E. Ballowe  
Director of Facilities

**RECOMMENDATION:** Recommend approval of a Resolution Awarding a Contract for the purchase and installation of new HVAC system replacements at the Rollins Seed Nursery building to the Trane Company, Willowbrook, Illinois, in the Contract Price of \$56,163.00.

**STRATEGIC DIRECTIONS SUPPORTED:** Organizational Sustainability; Conservation

**FINANCIAL DATA:** The installation of the above-referenced system with a Bry-Air desiccant dehumidification unit and ductless heat pump and condensing unit was part of a remodeling project at the Rollins Seed Nursery building. The entire new seed storage facility was estimated and funded as part of the Board approved FY2018-2019 Natural Resources Budget in the amount of \$40,000.00.

After bidding out the different parts of the project it was determined that the original cost estimate for the new replacement heating and conditioning system exceeded the estimated budget projections. Engineering estimates of projected costs from over two years ago do not accurately reflect today's market costs for installation of this equipment. Consequently, the amount of \$56,163.00 required for the purchase of the new system will be funded with remaining funds from the original project budget (\$20,000.00), unused funds from the Wildlife Conservation Facility at Pine Dunes project (\$10,000.00) and unused funds from the Facility and Infrastructure Improvement Fund Independence Grove Flat Roof project (26,163.00) which came in \$32,000 under budget.

**BACKGROUND:** The equipment will replace the existing Rooftop HVAC system and, with the addition of the dehumidifier, will provide a "chiller" environment that is key in maintaining and preserving the harvested seed necessary to propagate the various species in our preserves. Annually the Seed Nursery stores approximately \$600,000 worth of harvested and purchased seed for future use in our preserves. Maintaining this inventory in a properly controlled climate storage facility is vital to ensure the seeds are not damaged or ruined.

Pursuant to the Illinois Governmental Joint Purchasing Act, 30 ILCS 525/1, et seq., any governmental unit may purchase personal property, supplies, and services jointly with one or more other governmental units if one of the governmental units has publicly advertised for, and received, competitive bids or proposals and has awarded a contract for such personal property, supplies, and services to the lowest responsible bidder or highest ranking proposer, all in accordance with such Act. The U.S. Communities Government Purchasing Alliance ("U.S.

Communities”) has publicly advertised for, and received, competitive proposals for the equipment, including a proposal by Trane U.S. Inc., and has awarded Contract # USC 15-JLP-023 to Trane U.S. Inc., as the highest ranking proposer for the equipment. The U.S. Communities Contract is available to other public entities The U.S. Communities Contract allows for a 22% discount off the list price of the equipment, resulting in a total price of \$56,163.00.
