**DATE:** September 23, 2019

**MEMO TO:** Terry Wilke, Chair  
Finance Committee

**FROM:** Steve Neaman  
Director of Finance

**RECOMMENDATION:** Recommend approval of the 2019 Tax Abatement Ordinance relating to Build America Bond Subsidy Payments and the 2019 Refunding Bonds.

**STRATEGIC DIRECTION SUPPORTED:** Organizational Sustainability

**FINANCIAL DATA:** Provides for the abatement of 2019 taxes levied for (i) bond interest payments on the Build America Bonds Series 2010A, in the amount of \$605,626.18, and Series 2010B, in the amount of \$654,898.48, less \$78,154.65 because of federal sequestration reductions and (ii) capitalized interest on the 2019 refunding bonds in the amount of \$182,076.00. The total of the abatements will then be \$1,364,446.

**BACKGROUND:** This Ordinance will partially abate tax levies for (i) debt service payments on two Build America Bond issues that were issued in 2010 and (ii) the 2019 refunding bonds sold on September 11<sup>th</sup> and scheduled to close on October 3<sup>rd</sup>.

Referendum bonds issued as Series 2010A and Series 2010B taxable Build America Bonds (BAB's) are eligible for US Treasury subsidy payments in the amounts of \$605,626.18 and \$654,898.48, respectively. The amounts represent 35% of the interest payments payable on June 15, 2020 and December 15, 2020. The adopted Bond Orders for the bonds require a levy sufficient to pay the total interest and principal payments on the bonds, with the expectation that 35% of the interest payment would be abated later by the amount of the subsidies. However, because of federal sequestration reductions enacted by Congress, the subsidy payments for the BAB's will be reduced by 6.2% or approximately \$78,154.65. Therefore, the District will reduce the amount of the BAB's tax levy abatement by \$78,154.65, making the total abatement for BAB's \$1,182,370. The subsidy payments will be received in two installments prior to the payment dates and deposited into the Bond Funds to be used solely for the purpose of paying the debt service on the outstanding BAB's. On a side note, if the current bond market interest rates are similar to where they are now in 2020 these bonds will be candidates for refinancing.

On October 3, the District will refinance its outstanding General Obligation Referendum bonds that were issued in 2011. The total principle balance to be refunded is \$24,545,000. By refinancing the bonds the District will realize a net present value savings of \$2,910,963.42. The amount reduced that would have gone onto property tax bills between now and 2035 is \$3,594,969.74. The determination of the net present value takes into consideration the cost of money over time. Future payments are discounted back to what it would cost today. This produces the approximately \$2.9 million dollar amount. Comparing the old debt payment schedule to the new payment schedule and not considering the time value of money produces the approximately \$3.95 million dollar amount. The sale and repayment of the bonds were structured in a way that produced \$182,076.00 in funds being available from the proceeds of the sale to pay towards the first interest payment that will be due on June 15, 2020. Therefore the District will be able to abate this amount from the property tax levy for debt service.
