MEMO TO: S. Michael Rummel, Chair
Finance and Administrative Committee

Agenda Item# 9.3

FROM: Michael G. Tully, Director
Director of Operations and Public Safety

SUBJECT: Purchase of an Inventory Control System and Related Services

RECOMMENDATION: Recommend approval of a Resolution awarding a contract for the purchase of Munis Inventory Control Software and related services to Tyler Technologies, Dallas, Texas, in the amount of \$50,015.00.

BACKGROUND: The District currently manages the inventory that comes into, and distributed out of, the Central Supply Warehouse at the Operations and Public Safety Facility using DOS based computer software that is outdated, no longer supported by the manufacturer, and cannot link to the District financial system.

Staff recommends purchase of an inventory control system that is a module of Munis Financial Software, which the District uses for its financial and purchasing functions. This Munis inventory module will link directly to the purchasing and general ledger modules, eliminating time-consuming manual entry of account codes by staff for every item checked out of inventory. The system will be able to automatically prompt staff to reorder supplies at set inventory levels. This system will also allow Finance Department staff to more closely analyze the true cost of District operations.

REASON FOR RECOMMENDATION: Committee recommendation and Board approval are required in accordance with District policy.

REVIEW BY OTHERS: Director of Finance

FINANCIAL DATA: Cost of this purchase will be charged to the District's Capital Infrastructure Replacement Account (11104100-809000).
