Do not order based on shoe size alone

**PLEASE NOTE:** The size charts are meant for the average dress shoe. **Boots need the next larger size.** To be the most accurate, please follow the instructions below.

**STEP 1:** Measure the boots that you want to use with the NEOS Overshoe from the heel to the toe and at the widest part of the fore foot;

**STEP 2:** Compare your measurement with the *insole* measurements on the chart below. The numbers in the chart equal the inside dimensions of the Neos Overshoe; and

**STEP 3:** Select the size that your boots would best fit in. (Your boots should be slightly smaller than the insole dimensions for that size Neos Overshoe.)
