SUBJECT: Lake Michigan Invasive Plant Strike Team, Chiwaukee Illinois Beach Lake Plain

RECOMMENDATION: Recommend Approval of a Resolution Awarding a Contract for Invasive Plant Management and Removal Work Through the Lake Michigan Invasive Plant Strike Team Project to Native Restoration Services, Inc., Lake Bluff, Illinois, in the Contract Price of \$318,207.00.

BACKGROUND: The Chiwaukee Illinois Beach Lake Plain (Lake Plain) includes areas adjacent to Lake Michigan between Kenosha Dunes in Wisconsin on the north to Waukegan Harbor Illinois on the South. The Lake Plain makes a significant contribution to the notable diversity of the Lake Michigan watershed and our Great lakes. Since 2011, owners of land within the Chiwaukee Illinois Beach Lake Plain (Lake Plain), including the District, Wisconsin Department of Natural Resources, the Nature Conservancy, Illinois Department of Natural Resources (IDNR), and others, have worked together to implement coordinated invasive plant management through an Invasive Plant Strike Team to protect and restore the biodiversity of this important coastal ecosystem. In 2014, this partnership was expanded to include other public and non-profit owners of coastal natural areas in Lake County, including: Waukegan Park District, Park District of Highland Park, the City of Lake Forest, and Openlands. Together, with the District as the lead organization, the partners developed a proposal to the Sustain Our Great Lakes Stewardship grant program to implement invasive plant management across all coastal natural areas in the Lake Michigan watershed in Lake County, Illinois and southern Kenosha County in Wisconsin through a Lake Michigan Watershed Invasive Plant Strike Team. In addition to the partners identified above this proposal included partners such as the Northeast Illinois Invasive Plant Partnership and the Plants of Concern Monitoring Program to assist in the coordination and assessment of the two-year management project.

The grant was awarded to the District in September 2014 in the amount of \$397,265.00. A portion of the grant estimated at \$340,000.00 was intended to fund the Lake Michigan Invasive Plant Strike Team project to manage invasive plants across the Lake Plain, including lands of the District and the other owners. The project was advertised on January 13, 2015 and eight bids were received. Bids were received in the following amounts from the following bidders (including bid alternates one, two, three, and four):
