MEMO TO: Jessica Vealitzek, Chair

FROM: Randall L. Seebach
Director of Planning and Land Preservation

RECOMMENDATION: Recommend approval of a Resolution approving a three-year Enterprise License Agreement for the use of Geographical Information System (GIS) Enterprise software to Environmental Systems Research Institute, Inc. (ESRI), in the Contract Price of \$237,500.00.

STRATEGIC DIRECTIONS SUPPORTED: Organizational Sustainability; Conservation

FINANCIAL DATA: This item was approved as part of the adopted FY2023 Budget, in the amount of \$75,000. \$80,000 will be budgeted in 2024 and \$82,500 in 2025. These amounts will be charged to account 20614000-701400.

BACKGROUND: The three-year Enterprise License Agreement (Agreement) that would be approved by the attached resolution replaces the District's existing annual maintenance and licensing agreement with ESRI for GIS software licenses. Those licenses are currently renewed yearly at a cost of \$49,501.00. The existing GIS software licenses with ESRI and the associate annual maintenance are no longer sufficient to meet the needs of the District's expanding enterprise GIS program or to provide software to all District staff, contractors, field technicians, and volunteers. The Agreement would provide a lower cost per unit for licenses over an expanded annual maintenance contract and will provide a costs savings of \$44,800 in the first year of the Agreement and an estimated savings of \$313,000 over the next ten years. GIS software is used to streamline data sharing, increase cross-departmental communication, and better inform decision-making for land conservation, planning, public safety, maintenance, and development. The Agreement would provide the District with daily customer support services for the GIS software, licensing, and all software updates for a period of three years.

The GIS software interconnects office and field work to a centralized District-wide Enterprise GIS system that is utilized for a variety of purposes, including creating maps for Committee and Board meetings and tracking herbicide treatments of invasive species. It supports the development of web applications to support workflows, including wildlife and rare-plant monitoring, controlled burn mapping and hazard reporting, maintenance inspections, plus asset and invasive species inventories. The software is also used in public-facing web applications, such as the Interactive Trail Map, closures and underpass status maps, winter sports status maps, and a map of the commemorative gifts to the Preservation Foundation.

Dear Nicholas,

The Esri Small Municipal and County Government Enterprise Agreement (SGEA) is a three-year agreement that will grant your organization access to Esri term license software. The EA will be effective on the date executed and will require a firm, three-year commitment.

Based on Esri's work with several organizations similar to yours, we know there is significant potential to apply Geographic Information System (GIS) technology in many operational and technical areas within your organization. For this reason, we believe that your organization will greatly benefit from an Enterprise Agreement (EA).

An EA will provide your organization with numerous benefits including:

- A lower cost per unit for licensed software
- Substantially reduced administrative and procurement expenses
- Complete flexibility to deploy software products when and where needed

The following business terms and conditions will apply:

- All current departments, employees, and in-house contractors of the organization will be eligible to use the software and services included in the EA.
- If your organization wishes to acquire and/or maintain any Esri software during the term of the agreement that is not included in the EA, it may do so separately at the Esri pricing that is generally available for your organization for software and maintenance.
- The organization will establish a single point of contact for orders and deliveries and will be responsible for redistribution to eligible users.
- The organization will establish a Tier 1 support center to field calls from internal users of Esri software. The organization may designate individuals as specified in the EA who may directly contact Esri for Tier 2 technical support.
- The organization will provide an annual report of installed Esri software to Esri.
- Esri software and updates that the organization is licensed to use will be automatically available for downloading.
- The fee and benefits offered in this EA proposal are contingent upon your acceptance of Esri's Small Municipal and County Government EA terms and conditions.

- Licenses are valid for the term of the EA.

This program offer is valid for 90 days. To complete the agreement within this time frame, please contact me within the next seven days to work through any questions or concerns you may have.

To expedite your acceptance of this EA offer:

1. Sign and return the EA contract with a Purchase Order or issue a Purchase Order that references this EA Quotation and includes the following statement on the face of the Purchase Order:

"THIS PURCHASE ORDER IS GOVERNED BY THE TERMS AND CONDITIONS OF THE ESRI SMALL MUNICIPAL AND COUNTY GOVERNMENT EA, AND ADDITIONAL TERMS AND CONDITIONS IN THIS PURCHASE ORDER WILL NOT APPLY."

Have it signed by an authorized representative of the organization.

2. On the first page of the EA, identify the central point of contact/agreement administrator. The agreement administrator is the party that will be the contact for management of the software, administration issues, and general operations. Information should include name, title (if applicable), address, phone number, and e-mail address.
3. In the purchase order, identify the "Ship to" and "Bill to" information for your organization.
4. Send the purchase order and agreement to the address, email or fax noted below:

There will be no decrease in Fee as a result of any Ownership Change.

- 9.1** If an Ownership Change increases the cumulative program count beyond the maximum level for this Agreement, Esri reserves the right to increase the Fee or terminate this Agreement and the parties will negotiate a new agreement.
- 9.2** If an Ownership Change results in transfer or sale of a portion of Customer's organization, that portion of Customer's organization will transfer the Products to Customer or uninstall, remove, and destroy all copies of the Products.
- 9.3** This Agreement may not be assigned to a successor entity as a result of an Ownership Change unless approved by Esri in writing in advance. If the assignment to the new entity is not approved, Customer will require any successor entity to uninstall, remove, and destroy the Products.
