SUBJECT: Agreements with Lake Michigan Watershed Partners for Lake Michigan Invasive Plant Strike Team Project

Agenda Item# 9.7

RECOMMENDATION: Recommend approval of a Resolution approving eleven (11) agreements with Lake Michigan Watershed Partners for the administration of a Sustain Our Great Lakes Stewardship Grant.

BACKGROUND: Since 2011, owners of land within the Chiwaukee Illinois Beach Lake Plain (Lake Plain), that include the Lake County Forest Preserve District (District), Wisconsin Department of Natural Resources, the Nature Conservancy, Illinois Department of Natural Resources, University of Wisconsin –Parkside, the Chiwaukee Prairie Preservation Fund, John Mansville, and Exelon, have worked together to implement coordinated invasive plant management through the Lake Plain Invasive Plant Strike Team to protect and restore the biodiversity of this important coastal ecosystem. In 2014, this partnership was expanded to include other public and non-profit owners of coastal natural areas in Lake County, including: Waukegan Park District, Park District of Highland Park, the City of Lake Forest, Openlands, Lake Forest Openlands Association, Lake Bluff Park District, Lake Bluff Openlands Association, the Northeast Invasive Plant Network and the Chicago Botanic Garden (hereafter referred to as Partners). Together, with the District as the lead organization, the Partners developed a proposal to the Sustain Our Great Lakes Stewardship grant program to implement invasive plant management across all coastal natural areas in the Lake Michigan watershed in Lake County, Illinois and southern Kenosha County in Wisconsin through a Lake Michigan Watershed Invasive Plant Strike Team.

In September 2014, the District was awarded a Sustain Our Great Lakes grant in the amount of \$397,265.00 to implement the Lake Michigan Watershed Invasive Plant Strike Team. To demonstrate commitment to the project, many of the Partners committed in-kind match contributions, totaling \$149,500. Work at Partner lands will directly benefit the ongoing restoration of Spring Bluff Forest Preserve, Lyons Woods Forest Preserve, Greenbelt Forest Preserve, and Fort Sheridan Forest Preserve by reducing invasive plant populations adjacent to the District's Forest Preserves in the Lake Michigan watershed. Pursuant to the attached agreements with the Partners, the District will administer grant funds being provided for the work on lands owned by each Partner, while requiring each Partner to provide oversight and project management of the work and track and report in-kind match contributions for grant reporting purposes.

REASON FOR RECOMMENDATION: Committee recommendation and Board approval are required in accordance with District policy.

REVIEW BY OTHERS: Director of Operations and Public Safety, Director of Finance, Legal Counsel

FINANCIAL DATA: These Agreements do not obligate the District financially. Funding for the Work on Partner lands will be 100% provided by a Sustain Our Great Lakes Grant, awarded September 8, 2014.
